Education	**Universidad Nacional de La Plata**, Argentina *MA.*, Economics, in progress. **GPA:** 9.5/10 (Approximately 4/4 in U.S scale). **Universidad de Piura**, Lima, Peru *Bachelor*, Economics, December 2017. **GPA:** 13.5/20 (Approximately 3/4 in U.S scale).

Research Interests

Labor Economics, Political Economy, and Development Economics.

Relevant Experience

Research Assistant — Universidad de Piura
January 2020 - June 2021

- For Dr. Patricia Vera.
- Worked on projects related to gender differences in occupational choice, and in Venezuelan immigration in Peru.
- Applied and won a grant as a co-author to study the Labor Market effects of the Venezuelan immigration in Peru.

Economic Consultant — Peruvian Department of Labor
July 2019 - December 2019

- Member of a consultant team in charge of designing the new Labor Market Policy aimed at improving overall working conditions for all Peruvian workers.
- I was specifically in charge of reviewing relevant literature on active labor market policies, the effects of labor market regulations on employment outcomes; and of handling household surveys to construct baseline indicators.

Research Assistant — Universidad de Piura
May 2019 - July 2019

- For Dr. Patricia Vera.
- The goal of this appointment was to explore the drivers of the gender wage gap beyond gender gaps in educational attainment.

Economic Consultant — Perspektiva
December - March 2019

- Elaborated a quantitative description of the market for Master's Degrees in Peru requested by the Valencia International University.

Economic Analyst — Direccion Regional de Educacion de Lima
October - December 2018

- Constructed Stata codes to automate budgeting practices and weekly school performance reports.

Teaching Assistant — Universidad de Piura
August 2017 - July 2018

- Prepared and taught weekly problem sets for *General Equilibrium and Market Power*
- Designed and taught a Stata module and complementary theoretical problem sets for *Introduction to Econometrics.*

Research Assistant Universidad de Piura
2017

- For Dr. Patricia Vera.
- Extracted and built a weekly panel data set from the National Longitudinal Survey of Youth 1997 featuring respondent's employment history using Stata and Fortran 90.
- Retrieved and cleaned Peruvian household surveys (Encuesta Nacional de Hogares).
- Performed a literature review to understand how Labor Market Rigidity is measured and how it impacts employment.
